

Club Creative Kinder-Care Newsletter

Happy New Year! As we snowball into January we will be building to our curriculum and activities by adding more challenging tasks such as level 2 site words, addition and subtraction with larger numbers, understanding the elements of weather beyond hot and cold, working with the understanding of temperatures, how to read the temperature, the concept of what makes ice freeze, and some neat science experiments! Also, the children will be starting their monthly writing journals this month, where they will have writing prompt each day of writing curriculum. The children will keep these journals all month, and they will be sent home at the end of the month. Parents may view these journals at any point upon request ☺
